SOUTH FLORIDA ELEVATED

THE MIAMI NEIGHBORHOOD GUIDE · 2026 EDITION

Where to buy in Miami, neighborhood by neighborhood.

Fourteen Miami neighborhoods, each with a sourced median price, a walk score, the school ratings buyers ask about, and the flood exposure that decides your insurance bill.

14	$457,000	$324	$1,440

How to use this guide

For most Miami buyers the decision comes down to four things: whether you want to walk to work, whether you need a specific school assignment, how much space your budget actually buys, and how much flood and wind insurance you are willing to carry. Brickell and Downtown Miami are the only genuinely car-optional places in the county. Aventura and Doral buy the most square footage per dollar. Coconut Grove and Coral Gables are where families pay for trees, houses and the highest-rated elementary schools.

$685K	$324	$1.44K	14%
BRICKELL MEDIAN	AVENTURA $/SQ FT	KEY BISCAYNE $/SQ FT	LOWEST FLOOD RISK · DORAL

START WITH THE COMMUTE

If you work in Brickell or Downtown and want to stop driving, Metromover is fare-free and runs 5:30 a.m. to 10 p.m. daily across 21 stations. If you work in Coral Gables or the Grove, a car is realistic, and Doral and Coral Way open up.

THEN CHECK THE SCHOOL ASSIGNMENT

Assignment follows the exact address. Confirm it with Miami-Dade County Public Schools before you write an offer, not after. The ratings printed here describe the school, not your assignment.

THEN PRICE THE INSURANCE

A $600K condo on the beach and a $600K condo in Doral are not the same purchase. Get a wind and flood quote on the exact address before you remove your inspection contingency.

AND READ THE BUILDING DOCUMENTS

Since Florida tightened its milestone inspection and reserve requirements, older buildings carry a real risk of special assessments. The budget, the reserve study and the last two board meetings tell you more than any staging does.

Where the numbers come from

Every price and price per square foot is a median for all home types from the Redfin market page for that area, in a three-month window ending September 2026. Flood figures are First Street projections as shown on Redfin. Walk scores come from Walk Score. Each page number in the text points to a numbered source in the back of this guide, so you can check any figure yourself.

Miami neighborhoods at a glance

Median sale price and median price per square foot, all home types, Redfin, three months ending September 2026. Sorted by price per square foot, lowest first, because that is the number that tells you how much space your budget actually buys.

NEIGHBORHOOD	MEDIAN	$/SQ FT	WALK	FLOOD	CHARACTER
Aventura	$457K	$324	43	Major	Lowest price per foot, mall and a Brightline stop
Little Havana	$582K	$361	87	Moderate	Calle Ocho, houses and the lowest price per foot
Doral	$634K	$367	39	Minor	Newer houses, lowest flood exposure, car required
Coral Way	$785K	$476	77	Moderate	Banyan streets between Brickell and the Gables
Edgewater	$526K	$570	87	Major	Bayfront new construction
Wynwood	$676K	$591	87	Moderate	Arts district, tiny resale market
Brickell	$685K	$615	94	Minor	Financial district, walk to work
Downtown Miami	$580K	$627	91	Severe	The most walkable address in the city
Silver Bluff	$1.0M	$661	77	Minor	The quiet pocket next to the Grove
Mid-Beach	$740K	$663	76	Extreme	Oceanfront calm between South Beach and North Beach
South Beach	$590K	$665	87	Extreme	Art Deco, hotels and the highest flood exposure
Coral Gables	$1.4M	$819	56	Not published	Planned city, schools and 87-day sales
Coconut Grove	$1.89M	$1,100	74	Major	Trees, water and the highest price per foot
Key Biscayne	$1.5M	$1,440	74	Extreme	Island village, one road in

Walk Score is the 0–100 walkability score for the area as reported by Redfin or Walk Score. Flood is First Street's projected risk label over 30 years as shown on the Redfin page for that area. Neither is a FEMA zone determination; check the flood map for the exact address.

01 Brickell

Financial district, walk to work

Brickell is the densest, most walkable place to own a condo in Miami. Offices, restaurants, a mall and the Metromover sit inside a few blocks, and most of the housing stock is high-rise. It is the neighborhood buyers ask about first when they want to sell a car and keep a city life.

MEDIAN SALE PRICE	MEDIAN $/SQ FT	DAYS ON MARKET
$685K	$615	146 days
+7.0% YoY	-0.57% YoY	58 sales

All home types, Redfin, three months ending September 2026. Redfin notes multiple offers are rare here and homes close about 6% below list. [1]

BUYERS WHO WANT TO WALK TO WORK AND DINNER

LOCK-AND-LEAVE OWNERS WHO TRAVEL

INVESTORS WHO WANT A DEEP RENTAL POOL

HOUSING

Almost entirely condominiums and co-ops, from 1980s towers on Brickell Bay Drive to new branded buildings near Brickell City Centre. Detached houses are effectively absent, and townhouses are rare.

GETTING AROUND · WALK SCORE 94

Walk Score gives 33131 a 94 ("Walker's Paradise") and rates transit "Excellent," with the Metromover Financial District station a four-minute walk away; the Metromover is fare-free and runs 5:30 a.m. to 10 p.m. daily.

SCHOOLS AND PARKS

Redfin lists Southside Elementary (PreK–8, GreatSchools 7/10) inside the neighborhood. Assignment depends on the address, so confirm with Miami-Dade County Public Schools before you buy.

FLOOD RISK · MINOR

79% of Brickell properties are projected to face severe flood risk over 30 years, and 100% carry an extreme wind rating.

HONEST TRADE-OFFS

- The median sat above list for neither buyer nor seller in this window: homes averaged roughly 5.5% under list and 146 days to sell, so price it right and expect to negotiate.
- Traffic on Southeast 2nd Avenue and the Brickell Avenue bridge is the real cost of the location.
- HOA dues and special assessments in older towers do more to your monthly payment than the price per foot.

02 Downtown Miami

The most walkable address in the city

Downtown is Brickell's neighbor to the north and the highest-supply condo market in Miami-Dade: 257 closings in September 2026 alone. It is also the only place in the county where a fare-free train, rail and a dense street grid meet, which is why buyers who work downtown or in health care and government choose it over the beach.

MEDIAN SALE PRICE	MEDIAN $/SQ FT	DAYS ON MARKET
$580K	$627	153 days
+0.4% YoY	+2.3% YoY	257 in September sales

All home types, Redfin, three months ending September 2026. Price per square foot is the highest of the mainland core neighborhoods in this guide, even though the median price is lower than Brickell's. [2]

BUYERS WHO WANT THE LOWEST ENTRY PRICE INSIDE THE URBAN CORE

ANYONE COMMUTING BY METRORAIL OR METROMOVER

INVESTORS WHO WANT VOLUME AND LIQUIDITY

HOUSING

Condominiums dominate, from 1970s bayfront buildings to new towers near Miami Worldcenter, with a small stock of older apartments and lofts. Expect studios and one-bedrooms to set the bottom of the market.

GETTING AROUND · WALK SCORE 91

Walk Score ranks Downtown first in Miami at 91 for walking, 94 for transit and 75 for biking. Metromover, Metrorail and Brightline all connect here.

SCHOOLS AND PARKS

Redfin lists I Preparatory Academy (PreK–12, 10/10) and Ada Merritt K-8 Center (10/10) among the schools serving the area. These are not guaranteed assignments; verify the address.

FLOOD RISK · SEVERE

89% of properties are projected to face severe flood risk over 30 years, the highest of the mainland neighborhoods covered here.

> HONEST TRADE-OFFS
>
> — Inventory is heavy: 27.2% of listings took a price cut in this window and the median home sat 153 days, so buyers hold leverage.
>
> — A lower median often buys a smaller or older unit. Compare price per square foot, not headline price.
>
> — Flood insurance is a separate policy and is not included in the county homeowners average.

03 Edgewater

Bayfront new construction

Edgewater runs along Biscayne Bay just north of Downtown and has become the address for new bayfront towers, with the Design District and Wynwood a short walk or ride inland. It is the value alternative to Brickell for buyers who want water views and a newer building.

MEDIAN SALE PRICE	MEDIAN $/SQ FT	DAYS ON MARKET
$526K	$570	146 days
-37.4% YoY	-22.3% YoY	24 sales

All home types, Redfin, three months ending September 2026. A 37% drop in the median with only 24 sales is a warning about mix, not proof that every unit lost a third of its value: what sold changed. [3]

BUYERS WHO WANT A NEW OR NEWER BAYFRONT BUILDING

CULTURE-FIRST BUYERS WHO WANT WYNWOOD AND THE DESIGN DISTRICT NEARBY

PRE-CONSTRUCTION BUYERS COMPARING BRANDED PROJECTS

HOUSING

High-rise condominiums, a large share of them built or delivered since 2015, plus a thin layer of older low-rise apartments and a few townhouses on the side streets.

GETTING AROUND · WALK SCORE 87

Walk Score rates the combined Wynwood-Edgewater district 87 for walking, 64 for transit and 78 for biking. Edgewater's bay side is quieter than that average; plan on a car for errands north of the neighborhood.

SCHOOLS AND PARKS

Redfin's Edgewater page lists no elementary school inside the neighborhood boundary, so school-age buyers should check the assigned school for the exact address first.

FLOOD RISK · MAJOR

72% of properties are projected to face severe flood risk over 30 years, with 100% at extreme wind risk.

> HONEST TRADE-OFFS
>
> — Twenty-four closings is a small sample. Ask for the last six months of comps in your specific building before you trust any neighborhood median.
>
> — Construction noise and new-tower supply are the two things resale buyers complain about most.
>
> — Bayfront exposure means wind and flood coverage, not just HOA dues, drive the monthly cost.

04 Wynwood

Arts district, tiny resale market

Wynwood is Miami's gallery and mural district, ringed by warehouses converted to lofts and restaurants. It has the smallest resale sample in this guide, which matters more than the headline price: six sales in three months is not a market, it is an anecdote.

MEDIAN SALE PRICE	MEDIAN $/SQ FT	DAYS ON MARKET
$676K	$591	119 days
+35.5% YoY	-8.6% YoY	6 sales

All home types, Redfin, three months ending September 2026. Six sales. The median price rose 35.5% while price per square foot fell 8.6%, which happens when a few larger or smaller units trade. [4]

BUYERS WHO WANT A LOFT OR A WALKABLE ARTS DISTRICT

SHORT-COMMUTE RENTERS AND SECOND-HOME BUYERS

BUYERS COMFORTABLE WITH A THIN RESALE MARKET

HOUSING

Converted warehouses and lofts, newer mid-rise condominiums, and a small number of older single-family houses and duplexes on the neighborhood edges.

GETTING AROUND · WALK SCORE 87

Walk Score gives the Wynwood-Edgewater district 87 for walking and 78 for biking; transit scores 64. Rideshare and the trolley do most of the work beyond the core blocks.

SCHOOLS AND PARKS

Redfin lists Paul Laurence Dunbar K-8 Center (5/10) and Eneida M. Hartner Elementary (4/10). Families comparing schools usually look at the Design District, Edgewater or Coral Gables instead.

FLOOD RISK · MODERATE

21% of properties are projected to face severe flood risk over 30 years, the lowest of the urban-core neighborhoods in this guide; 100% carry extreme wind risk.

> HONEST TRADE-OFFS
>
> — Six sales in the quarter means one atypical closing can move the median by double digits either way.
>
> — Noise from galleries, bars and events is part of the address, not a temporary condition.
>
> — Parking is scarce and many buildings have rental caps or minimum lease terms. Read the condo docs before buying as an investment.

05 Coconut Grove

Trees, water and the highest price per foot

Coconut Grove is the oldest continuously settled part of Miami and still reads as a village: sailboats, banyans, a walkable center and detached houses on real lots. It is also the most expensive neighborhood in this guide per square foot at $1.1K, ahead of Coral Gables and Key Biscayne.

MEDIAN SALE PRICE	MEDIAN $/SQ FT	DAYS ON MARKET
$1.89M	$1,100	110 days
+9.3% YoY	+20.9% YoY	32 sales

All home types, Redfin, three months ending September 2026. Price per square foot rose 20.9% year over year, the steepest increase of any neighborhood in this guide. [5]

BUYERS WHO WANT A HOUSE AND A GARDEN INSIDE THE CITY

SAILING AND WATERFRONT FAMILIES

BUYERS WHO WANT WALKABILITY WITHOUT HIGH-RISE DENSITY

HOUSING

A mix of single-family houses, townhouses and a smaller number of condominiums, with waterfront estates on the bay side and smaller 1950s and 1960s houses inland.

GETTING AROUND · WALK SCORE 74

Walk Score splits the Grove: Northeast Coconut Grove scores 74 for walking, 50 for transit and 79 for biking, while Southwest Coconut Grove scores 60, 42 and 61.

SCHOOLS AND PARKS

Redfin lists Coconut Grove Elementary and George W. Carver Elementary, both 10/10 on GreatSchools, plus Silver Bluff Elementary at 7/10.

FLOOD RISK · MAJOR

54% of properties are projected to face severe flood risk over 30 years, lower than the beach but higher than Brickell.

> HONEST TRADE-OFFS
>
> — The entry price for a house is far above the condo median in other neighborhoods. Budget for insurance and older-home maintenance.
>
> — Older housing stock means roof age, cast iron and 1950s electrical systems show up in inspections.
>
> — The village center is walkable, but most of the neighborhood is not: a car is realistic inland.

06 Coral Gables

Planned city, schools and 87-day sales

Coral Gables is a separately incorporated city with its own zoning, tree canopy and design review, which is why it holds value differently from the city of Miami. It sells faster than any neighborhood in this guide: 87 days on market against 146 in Brickell.

MEDIAN SALE PRICE	MEDIAN $/SQ FT	DAYS ON MARKET
$1.4M	$819	87 days
+7.6% YoY	+16.4% YoY	148 sales

All home types, Redfin, three months ending September 2026. The deepest market of the high-price neighborhoods here, with 148 closings in September. [6]

FAMILIES PRIORITIZING PUBLIC SCHOOL RATINGS | BUYERS WHO WANT ARCHITECTURAL CONTROLS AND TREE CANOPY | BUYERS WHO VALUE RESALE SPEED

HOUSING

Mediterranean Revival and mid-century single-family houses, townhouses, and a limited number of condominiums near Miracle Mile and Ponce de Leon Boulevard.

GETTING AROUND · WALK SCORE 56

Redfin reports a Walk Score of 56, a Transit Score of 38 and a Bike Score of 56 for the city. The commercial core is walkable; the residential blocks are not.

SCHOOLS AND PARKS

Redfin lists five elementary schools rated 10/10 by GreatSchools: Pinecrest, Sunset, Coral Gables Preparatory Academy, George W. Carver and Henry S. West Laboratory.

FLOOD RISK · NOT PUBLISHED

Redfin's Coral Gables page did not publish a First Street flood rating in the version read on November 3, 2026. Check the FEMA flood map for the exact address instead of assuming.

> HONEST TRADE-OFFS
>
> — Design review and permitting take longer than in unincorporated Miami-Dade, which affects renovations.
>
> — Price per square foot is high for what the house itself delivers; you are paying for the city, the trees and the schools.
>
> — Much of the city is outside the walkable core, so two cars is common.

07 Little Havana

Calle Ocho, houses and the lowest price per foot

Little Havana is the most affordable place in this guide to buy a house inside the city of Miami, at $361 per square foot. Calle Ocho, domino park and the food corridor give it a street life that newer neighborhoods imitate, and it is genuinely walkable at a 87 Walk Score.

MEDIAN SALE PRICE	MEDIAN $/SQ FT	DAYS ON MARKET
$582K	$361	62 days
+40.3% YoY	+9.2% YoY	10 in September sales

All home types, Redfin, three months ending September 2026. Ten sales in the month. The 40% jump in the median is partly a change in what sold, so treat it as direction, not a target price. [7]

BUYERS WHO WANT A SINGLE-FAMILY HOUSE UNDER $700K

BUYERS WHO WANT A WALKABLE, ESTABLISHED NEIGHBORHOOD

INVESTORS LOOKING AT SMALL MULTIFAMILY

HOUSING

Single-family houses, duplexes and small apartment buildings, mostly built between the 1920s and 1970s, with a growing number of new townhouse projects.

GETTING AROUND · WALK SCORE 87

Walk Score rates Little Havana 87 for walking, 62 for transit and 65 for biking, the strongest combination of walkability and price in this guide.

SCHOOLS AND PARKS

Redfin lists Citrus Grove Elementary (PreK–8) at 3/10 on GreatSchools. Buyers focused on school ratings usually cross-shop Coral Way or Coral Gables.

FLOOD RISK · MODERATE

81% of properties are projected to face severe flood risk over 30 years; 100% carry an extreme wind rating.

> HONEST TRADE-OFFS
>
> — Older houses mean roof, plumbing and electrical work, and many have had additions without permits. Order a permit history.
>
> — Small sales volume makes medians jumpy from month to month.
>
> — Insurance on a 1950s house with an older roof can cost more than the mortgage difference between two neighborhoods.

08 South Beach

Art Deco, hotels and the highest flood exposure

South Beach is the ZIP 33139 market: Art Deco blocks, Lincoln Road, the ocean and a rental economy built on visitors. It is the most walkable place in this guide by address-level score and also the most exposed to flood risk, at 97% of properties.

MEDIAN SALE PRICE	MEDIAN $/SQ FT	DAYS ON MARKET
$590K	$665	129 days
+36.9% YoY	+17.4% YoY	227 sales

All home types, Redfin, three months ending September 2026. Redfin publishes this at ZIP level; ZIP 33139 is used here as the proxy for South Beach because Redfin does not break the area out as a neighborhood. [8]

SECOND-HOME BUYERS WHO WANT TO WALK TO THE OCEAN

BUYERS WHO WANT A SHORT-TERM-RENTAL-CAPABLE ADDRESS

BUYERS WHO WANT A COMPACT, CAR-OPTIONAL LIFE

HOUSING

Condominiums and co-ops dominate, from 1920s Art Deco buildings to new South of Fifth towers, with a small number of single-family houses on the quietest streets.

GETTING AROUND · WALK SCORE 87

Redfin reports a Walk Score of 87 for the ZIP. Walk Score rates South Beach's Flamingo-Lummus blocks 95 and South Pointe 91, among the highest in Miami Beach.

SCHOOLS AND PARKS

Redfin lists South Pointe Elementary at 8/10 and Fienberg/Fisher K-8 Center at 4/10 on GreatSchools.

FLOOD RISK · EXTREME

97% of properties in 33139 are projected to face severe flood risk over 30 years. Flood insurance is separate from the wind policy and both matter here.

> HONEST TRADE-OFFS
>
> — Nightlife noise, short-term rentals in the building and hotel traffic are part of the address.
>
> — Older Art Deco buildings carry milestone inspection and reserve study requirements under Florida law. Read the association documents first.
>
> — Budget for flood and wind separately; the county average does not include flood.

09 Mid-Beach

Oceanfront calm between South Beach and North Beach

Mid-Beach is the stretch of Miami Beach between South Beach and North Beach, where the oceanfront is quieter and the buildings are a mix of 1950s hotels converted to condos and newer oceanfront towers. It trades nightlife for beach routine.

MEDIAN SALE PRICE	MEDIAN $/SQ FT	DAYS ON MARKET
$740K	$663	127 days
+15.4% YoY	-0.08% YoY	99 sales

All home types, Redfin, three months ending September 2026. Prices per foot were essentially flat year over year while the median sale price rose, which points to a shift toward larger units selling. [9]

BUYERS WHO WANT OCEANFRONT WITHOUT THE SOUTH BEACH CROWD

SEASONAL OWNERS WHO WANT A CALM BUILDING

BUYERS WHO WANT A LARGER UNIT FOR THE MONEY THAN SOUTH BEACH OFFERS

HOUSING

Condominiums and co-ops in oceanfront and bayfront buildings, plus a small number of single-family houses east of Collins Avenue and on the bay side.

GETTING AROUND · WALK SCORE 76

Walk Score puts Miami Beach overall at 76 for walking. Mid-Beach is closer to the Ocean Front and North Shore block scores in the high 60s to low 80s than to South Beach's 95, and most errands are a short drive.

SCHOOLS AND PARKS

Redfin lists North Beach Elementary at 9/10 on GreatSchools as serving the area.

FLOOD RISK · EXTREME

97% of properties are projected to face severe flood risk over 30 years, the same exposure as South Beach.

> HONEST TRADE-OFFS
>
> — Fewer restaurants within walking distance than South Beach; the trade is quiet.
>
> — Older oceanfront buildings face milestone inspections and reserve funding requirements, which can mean assessments.
>
> — Wind and flood coverage on the barrier island is the largest non-mortgage cost for most owners.

10 Aventura

Lowest price per foot, mall and a Brightline stop

Aventura is a planned city on the Intracoastal with the lowest median price per square foot in this guide at $324, a mall that functions as a town center and its own Brightline station. It is the most common answer for buyers who want space and amenities without a Miami Beach price.

MEDIAN SALE PRICE	MEDIAN $/SQ FT	DAYS ON MARKET
$457K	$324	137 days
-3.8% YoY	-4.3% YoY	214 sales

All home types, Redfin, three months ending September 2026. One of only two neighborhoods in this guide where both the median price and price per foot fell year over year. [10]

BUYERS WHO WANT THE MOST SQUARE FOOTAGE PER DOLLAR

COMMUTERS TO BOTH MIAMI AND FORT LAUDERDALE

BUYERS WHO WANT A MANAGED, AMENITY-HEAVY BUILDING

HOUSING

Mostly condominiums in Intracoastal and canal-front towers, plus gated townhouse communities and a pocket of single-family houses.

GETTING AROUND · WALK SCORE 43

Redfin reports a Walk Score of 43, a Transit Score of 46 and a Bike Score of 55. Brightline opened its Aventura station in December 2022, and the Don Soffer Exercise Trail is a 3.1-mile paved loop open 24 hours.

SCHOOLS AND PARKS

Redfin lists Aventura Waterways K-8 Center at 7/10 and Ojus Elementary at 8/10 on GreatSchools.

FLOOD RISK · MAJOR

92% of properties are projected to face severe flood risk over 30 years.

HONEST TRADE-OFFS

- Not a walking neighborhood: plan on a car for groceries and school runs.
- Large condo buildings mean HOA dues cover a lot, and those dues rise when reserves are underfunded.
- Prices have drifted down for a year, which gives buyers room to negotiate but is worth understanding before you buy for a short hold.

11 Key Biscayne

Island village, one road in

Key Biscayne is an incorporated village on a barrier island reached by one causeway, with a two-mile county beach, a state park at its southern tip and a single K-8 school. Buyers choose it for the island life and accept the one-road commute and the flood exposure that come with it.

MEDIAN SALE PRICE	MEDIAN $/SQ FT	DAYS ON MARKET
$1.5M	$1,440	92 days
-10.3% YoY	+42.1% YoY	68 sales

All home types, Redfin, three months ending September 2026. Redfin also reports a median list price of $2.34M and a median list price per foot of $1.15K on the same page, so the sold market and the asking market are pulling apart. [11]

FAMILIES WHO WANT ONE VILLAGE SCHOOL AND A BEACH NEARBY

BUYERS WHO WANT AN ISLAND ADDRESS WITHOUT SOUTH BEACH NIGHTLIFE

BUYERS WHO VALUE PRIVACY OVER CONVENIENCE

HOUSING

Condominiums in oceanfront and bayfront buildings, single-family houses on the interior streets, and a small number of estate lots near the state park.

GETTING AROUND · WALK SCORE 74

Walk Score gives 33149 a 74 ("Very Walkable") for the village center. There is one bus route, the 26, so most households keep at least one car and the Rickenbacker Causeway is the only way on and off the island.

SCHOOLS AND PARKS

Redfin lists Key Biscayne K-8 Center at 8/10 on GreatSchools. Crandon Park, run by Miami-Dade County, includes a two-mile beach, a marina, an 18-hole public golf course and a 27-court tennis center.

FLOOD RISK · EXTREME

99% of properties are projected to face severe flood risk over 30 years, the highest in this guide, and the island sits behind a single causeway.

HONEST TRADE-OFFS

- One road in and out. Storm evacuation and daily commute both depend on it.
- Price per foot rose 42% year over year while the median price fell 10%, a mix shift that rewards checking comps in your specific building.
- Flood and wind coverage on a barrier island is the single largest ownership cost after the mortgage.

12 Doral

Newer houses, lowest flood exposure, car required

Doral is a separate city west of the airport built largely after 2000, which shows in its housing stock and its insurance profile: only 14% of properties carry projected severe flood risk, against 97% on the beach. It is the practical choice for buyers who want a newer house and a garage.

MEDIAN SALE PRICE	MEDIAN $/SQ FT	DAYS ON MARKET
$634K	$367	90 days
+0.7% YoY	+0.8% YoY	195 sales

All home types, Redfin, three months ending September 2026. The steadiest market in this guide: both the median price and price per foot moved less than 1% year over year. [12]

BUYERS WHO WANT A NEWER SINGLE-FAMILY HOUSE

BUYERS PRIORITIZING LOW FLOOD EXPOSURE

FAMILIES WHO WANT A NEWER K-8 CAMPUS NEARBY

HOUSING

Single-family houses and townhouses in planned communities, plus mid-rise and high-rise condominiums near Downtown Doral and the business parks.

GETTING AROUND · WALK SCORE 39

Redfin reports a Walk Score of 39, a Transit Score of 35 and a Bike Score of 53. This is a car-first city; the trade is newer housing and easier parking.

SCHOOLS AND PARKS

Redfin lists five K-8 schools at 7/10 or 8/10 on GreatSchools, including John I. Smith and Dr. Toni Bilbao Preparatory Academy.

FLOOD RISK · MINOR

14% of properties are projected to face severe flood risk over 30 years, the lowest of any neighborhood in this guide, though 98% carry an extreme heat rating.

> HONEST TRADE-OFFS
>
> — Walk Score of 39 means almost every trip is a drive, including school and groceries.
>
> — Houses built during the 2000s boom are now 20 years old: roofs and A/C systems are the near-term costs.
>
> — Commuting to Miami Beach or Brickell crosses the airport corridor, which is the worst traffic in the county.

13 Coral Way

Banyan streets between Brickell and the Gables

Coral Way is the neighborhood along the 1922 boulevard that runs from Brickell to Coral Gables, taking in Shenandoah, Coral Gate and The Roads. It is the compromise address: close to downtown, close to the Gables, houses rather than towers, and 77 for walkability.

MEDIAN SALE PRICE	MEDIAN $/SQ FT	DAYS ON MARKET
$785K	$476	91 days
-2.0% YoY	-8.8% YoY	153 sales

All home types, Redfin, three months ending September 2026. One of the few neighborhoods here where price per foot fell while the median held, which favors buyers comparing houses of similar size. [13]

BUYERS WHO WANT A HOUSE NEAR BRICKELL AND THE GABLES

BUYERS WHO WANT A WALKABLE RESIDENTIAL STREET

BUYERS WHO WANT MORE HOUSE THAN THE GROVE OR GABLES ALLOW AT THIS PRICE

HOUSING

Mediterranean Revival and mid-century single-family houses on tree-lined streets, with townhouses and mid-rise condominiums along the boulevard and Southwest 27th Avenue.

GETTING AROUND · WALK SCORE 77

Walk Score rates Coral Way 77 for walking, 53 for transit and 69 for biking. The Metrorail runs along US-1 nearby, and Brickell is a short drive or ride.

SCHOOLS AND PARKS

Redfin lists Coral Way K-8 Center and Southside Elementary at 7/10 and Silver Bluff Elementary at 7/10 on GreatSchools, with Shenandoah Elementary at 6/10.

FLOOD RISK · MODERATE

75% of properties are projected to face severe flood risk over 30 years.

HONEST TRADE-OFFS

— Older houses on small lots: expect renovation and permit research before you close.

— US-1 and Southwest 27th Avenue carry heavy traffic at rush hour.

— Insurance on a 1940s–1960s house depends heavily on roof age and wind mitigation credits.

14 Silver Bluff

The quiet pocket next to the Grove

Silver Bluff sits between Coral Way and Coconut Grove, a small grid of houses that shares the Grove's trees and the Coral Way corridor's convenience at a lower price per foot than either. Sales volume is thin at 19 closings, so read the numbers carefully.

MEDIAN SALE PRICE	MEDIAN $/SQ FT	DAYS ON MARKET
$1.0M	$661	106 days
+29.6% YoY	-1.2% YoY	19 sales

All home types, Redfin, three months ending September 2026. Nineteen sales. The median rose 29.6% while price per foot slipped 1.2%, so the increase reflects which houses sold more than a change in value per foot. [14]

BUYERS WHO WANT A HOUSE WALKABLE TO THE GROVE

BUYERS PRICED OUT OF COCONUT GROVE

BUYERS WHO WANT A SMALL, QUIET STREET GRID

HOUSING

Predominantly single-family houses from the 1940s through 1970s on 6,000- to 8,000-square-foot lots, with a handful of new builds and small apartment buildings.

GETTING AROUND · WALK SCORE 77

Walk Score rates the Coral Way district, which includes Silver Bluff, 77 for walking, 53 for transit and 69 for biking. Coconut Grove and Brickell are each a short drive.

SCHOOLS AND PARKS

Redfin lists Silver Bluff Elementary at 7/10 on GreatSchools.

FLOOD RISK · MINOR

78% of properties are projected to face severe flood risk over 30 years; Redfin labels the area's overall Flood Factor as minor.

HONEST TRADE-OFFS

- Small sales sample: a single new build can move the median by six figures.
- Inventory is limited and houses rarely come up, so timing matters more than in a condo market.
- The neighborhood is quiet and residential; there is little retail inside it, so errands mean a drive to Coral Way or the Grove.

Questions buyers ask in Miami

What is the best neighborhood in Miami to buy a home in?

There is no single best one. Brickell and Downtown suit buyers who want to walk to work and dinner; Coconut Grove and Coral Gables suit buyers who want a house, trees and schools; Aventura and Doral deliver more square footage per dollar; Key Biscayne and Miami Beach trade convenience for water. The right answer depends on your commute, whether you need a school assignment, and how much flood and wind insurance you are willing to carry.

How much does a home cost in Miami right now?

Redfin's October 2026 pages, covering the three months ending September 2026, put the median sale price at about $580K in Downtown Miami, $685K in Brickell, $1.4M in Coral Gables and $1.89M in Coconut Grove. Those are medians for all home types, so a two-bedroom condo and a four-bedroom house in the same neighborhood can sit far from the number.

Is Brickell or Miami Beach a better first Miami condo?

Brickell is more walkable to work and transit and its median home sells in about 146 days at roughly $685K; South Beach (ZIP 33139) medians about $590K but carries 97% projected severe flood exposure and a rental economy built on visitors. Buyers who need to commute usually prefer Brickell; buyers who want the ocean usually accept the insurance cost of the beach.

Do I need flood insurance in Miami?

Flood is a separate policy on every homeowners form and is not included in any county average premium. Projected flood exposure in the neighborhoods covered here runs from 14% of properties in Doral to 99% in Key Biscayne, so the answer depends on the address. Check the FEMA flood map and get a flood quote before you remove your inspection contingency.

YOUR NEXT STEP

Want this narrowed to your budget and your block?

Tell me which two or three neighborhoods here you are weighing and I will send the building-by-building version, with the condo documents to request and the questions to ask before an offer.

Questions buyers ask in Miami, continued

Which Miami neighborhoods can I live in without a car?

Walk Score rates Downtown Miami 91 for walking and 94 for transit, Brickell 94 for a typical 33131 address, and Little Havana and the Wynwood-Edgewater district 87 each. Doral scores 39 and Aventura 43, which means a car is realistic there. Metromover, the fare-free downtown train, runs 5:30 a.m. to 10 p.m. daily.

What does homeowners insurance cost in Miami-Dade County?

Florida's Office of Insurance Regulation reports an average Miami-Dade homeowners premium of $5,975 a year with wind coverage and $3,779 without it, using policy data as of March 31, 2026. Those are averages across every insured home in the county, not a quote: roof age, wind mitigation features, deductibles and rebuild cost move the number more than the ZIP code.

How much are HOA dues in a Miami condo?

There is no reliable published range by neighborhood, so this guide does not quote one. Instead, ask each association for its current budget, its reserve study or structural integrity reserve study, any pending special assessment and its insurance premium line. In older buildings those documents explain the monthly cost more than the listing price does.

Should I buy in a neighborhood where the median price fell?

A falling median is not automatically a bargain. Edgewater's median fell 37.4% on 24 sales and Wynwood's price per foot fell 8.6% on six, so what sold changed as much as what homes are worth. Ask for the last six months of closed comparables in the specific building or block, then decide.

Every price and price per square foot on this page is a median for all home types from the Redfin market page for that area, taken from Redfin's October 2026 page, which reports a three-month window ending September 2026 (Redfin, 3 months ending Sept 2026). Medians describe what sold in that window, not what a specific home is worth, and small samples move sharply.

School ratings are GreatSchools ratings as published on the Redfin page for each area and describe the school, not the assignment. Confirm the assigned school for an exact address with the local school district. Flood percentages are First Street projections over 30 years, not FEMA zone designations, so check the FEMA flood map for the address as well. Market figures are medians from third-party public sources for the periods shown and do not represent the value of any specific property. Information is deemed reliable but not guaranteed. This guide is general information, not legal, tax or insurance advice. Miguel Perez is a REALTOR® with Luxe Properties, Florida license SL3515849. Equal Housing Opportunity.
